# SAVE LABOR, DO MORE AND FINISH FASTER.

Think of all the tasks you do every day. Now imagine how much faster you could do them with a Toro® Dingo®. The versatile Dingo is an efficient alternative to hand labor, skid-steer loaders and compact track loaders — especially in tight spots other equipment can't reach. And the light footprint is gentle on turf. It's a simple way to boost productivity and expand your business — and now our full lineup offers more choices than ever. Whether you need wheels or tracks, gas or diesel, radial lift or vertical lift capabilities, there's a Dingo that's right for you.

## HANDLE VIRTUALLY ANY TASK

The Dingo works with a wide range of available attachments. You can do anything from augering, earthmoving, tilling and trenching to leveling, lifting, hauling and demolishing with one machine. Plus, with our full lineup, you can choose from gasoline or diesel models with tracks or wheels to fit the jobs you need to do.

**TX 1000**

**REACH HIGHER  
AND LIFT MORE**

# THE COMPACT UTILITY LOADER, REDEFINED.

The TX 1000 - a giant step forward in performance and versatility. This lightweight maneuverable machine packs unmatched strength and reach in a compact package for the ultimate working advantage. The 1,000-plus pounds rated operating capacity makes the TX 1000 a powerful, compact alternative to larger skid steer loaders and other machines.

## TX 1000 CONTROLS

The patented control system is exclusive to the Toro TX 1000 and provides intuitive operation that's effortless for the operator, all day long.

- 1 Curl, dump or float the bucket while raising or lowering the loader arms with one hand using the joystick.
- 2 Grab the traction drive joystick for effortless, single-hand control.
- 3 Activate the auxiliary circuit control lever to power the attachments instantly.

TX 1000

## TX 1000 FEATURES

### UNMATCHED STRENGTH

Vertical lift loader arms allow the TX 1000 to lift and transport heavy loads with a rated operating capacity of 1,000-plus pounds.

### MAXIMUM HEIGHT AND REACH

The 81" (206 cm) hinge pin height allows attachments to easily clear the side of 30-yard dumpsters or one-ton trucks.

### HIGH DRIVE TRACK SYSTEM

Ideal for the demands of any jobsite to outperform on any surface, even sand or loose gravel.

### COMPACT FOOTPRINT

The narrow model is just 33.7" (86 cm) wide and fits through standard 36" gates. At just 41" (104 cm) wide, the wide-track model is also easy to maneuver.

**TX 427 & TX 525  
TRACKED DINGO**

**MORE WORK IN  
LESS TIME**

## RUGGED AND DEPENDABLE.

The original tracked compact utility loaders, Toro Dingo TX 427 & 525 models deliver durability and reliability pros and Do-It-Yourselfers trust, combined with powerful performance and incredible versatility. For operators who are frequently switching tasks or moving things out of the way, these walk-behind models provide greater productivity due to the ability to walk up to the machine and go. In addition, with walk-behind Dingos, operators don't feel the bumps when going over rough terrain.

### EXCLUSIVE TX CONTROLS

Three simple controls let operators get to work fast:

- 1 Curl, dump or float the bucket while raising or lowering the loader arms with one hand using the joystick.
- 2 Grab the one-handed traction drive from any angle for effortless control.
- 3 Activate the auxiliary circuit control lever to power the attachments instantly.

## TX 427 & TX 525 FEATURES

### LOW-IMPACT FOOTPRINT

Long-lasting, Kevlar® reinforced tracks disperse weight evenly for a light footprint on turf, while delivering better traction in sandy or wet ground conditions.

### EASY-TO-USE PLATFORM

Quickly and easily bolted on to Toro Dingo TX 427 & 525 models, this ride-on platform helps minimize operator fatigue when the job requires a lot of hauling or covers substantial distances. The platform can be flipped up – out of the way – any time the operator wishes.

### HIGH-PERFORMANCE HYDRAULICS

The 4-pump hydraulic system directs power right where you need it. Operate the loader, bucket, traction and auxiliary drives at the same time for increased operator efficiency.

### DIESEL AND GAS ENGINES

Choose a gas model for easy maintenance and cold-weather starting. Or choose diesel for better performance in high altitudes and warmer climates, along with more horsepower for attachments.

## 323 & 320D WHEELED DINGOS

**BIG BENEFITS  
IN SMALL SPACES**

## GO WHERE YOU NEED TO WORK.

Access confined spaces you never thought possible with a wheeled Dingo® compact utility loader. These models offer zero-turn capability, along with a shorter length that's easy to load on a trailer. You also get reliable hydraulic power to use a wide range of attachments. If you do a lot of tasks in tight spaces or on hard surfaces, these are the models for you.

### DINGO CONTROLS

Responsive controls make the wheeled Dingo highly maneuverable:

- 1 Curl or dump the attachment while raising or lowering the loader arms.
- 2 Raise and lower loader arms.
- 3 Traction drive control.
- 4 Activate the auxiliary circuit control lever to power the attachments instantly.

## 323 & 320D FEATURES

### HIGHLY MANEUVERABLE

Short wheelbase design offers excellent maneuverability. Get into tight spaces where only hand labor could go before.

### TWO TRANSPORT SPEEDS

Low speed sends more hydraulic power to the attachment and high speed sends more power to the wheels. The low speed option also helps new operators shorten their learning curve.

### IMPROVED VISIBILITY

The integrated ride-on operator platform allows improved visibility of the working area and attachments.

### 4-PAW™ INDEPENDENT FOUR-WHEEL DRIVE

Four independent wheel motors deliver hydraulic flow and pressure to all four wheels for improved traction and mobility. Fewer moving parts also mean less maintenance.

#### TORO QUICK ATTACH SYSTEM CHANGE ATTACHMENTS IN SECONDS

- 1 Mount to the attachment plate on the unit.
- 2 Twist the pins to locked position.
- 3 For powered attachment, connect hydraulic lines to dripless flush-face quick couplers on loader arms.

## TRENCHING, PLOWING, AND BORING EQUIPMENT

#### BORE DRIVE HEAD AND ROD & REAMER KIT

*(sold separately)*  
Easily bore under driveways and sidewalks to simplify irrigation and cable installations. Working depth: 19"

#### VIBRATORY PLOW

Reduce time spent on irrigation or cable installations. The vibratory plow optimizes pipe-pulling performance while minimizing turf damage. Extremely tight turning radius allows for tight maneuvering in confined spaces.

#### TRENCH FILLER

Two sets of opposing augers direct spoils into the hole. Standard float mechanism allows for up to 5" of ground following floatation. Skids evenly disperses weight and slide easily over turf, minimizing damage. Auger diameter: 14".
