EXPERIENCE THE DIFFERENCE

Located in Charlotte, NC, the Hyster-Yale Experience Center is a state-of-the-art training and event facility designed to inform and educate our customers, dealers and employees. Visitors will find opportunities to learn more about our brands, the applications that our trucks and services support, and the solutions we provide as a company.

During our Emerging Technology Focus Weeks, the Emerging Technology team will be on-site to support customer demos of our automation and operator assist solutions.

Contact your dealer to arrange a visit during these 2024 dates:

June 3 – 7

July 8 – 12

August 5 – 9

September 2 – 6

October 28 – November 1

December 9 – 13

Hyster-Yale Experience Center
440 East Westinghouse Blvd.
Charlotte, NC 28273

Creating a safety culture

Experts will guide attendees through key accountability operator training and technology considerations to help warehouses establish a safety culture.

Planning for automation

Yale automation experts will explain attributes to look for in automated lift trucks to simplify implementation and modifications, mitigate risk and lower the cost of entry.
